Birgit Snijder-Kuipers makes various contributions to three books

Birgit has recently collaborated on three books, with two focusing on Anti Money Laundering (AML).

For the *Vereniging voor Financieel Recht*, she wrote a chapter on UBOs in Europe; specifically, the various definitions and how registration varies throughout European Member States.

Together with Ed van Liere, she also wrote a chapter about the AML in the second edition of *Bijzonder strafrecht. Strafrechtelijke handhaving van sociaal-economisch en fiscaal recht in Nederland.*

Birgit also edited, together with Gunther Rensen, the second part of *Handboek notarieel ondernemingsrecht on Vereniging, coöperatie en onderlinge waarborgmaatschappij.*
